## Profile

---

I'm a passionate front-end developer focused on building interactive, visually engaging, and responsive web applications. I specialize in clean, efficient code and enjoy turning creative ideas into functional designs.

## Skills

---

- **HTML5:** Proficient in creating semantic, accessible, and responsive web pages.
- **CSS3:** Skilled in Flexbox, Grid, and animations for styling responsive websites.
- **JavaScript:** Experienced in creating dynamic, interactive web applications.
- **React.js:** Proficient in building scalable applications with state management.
- **Vue.js:** Capable of building modular front-end applications.
- **Git/GitHub:** Experienced with version control in collaborative projects.
- **Bootstrap:** Skilled in mobile-first design with Bootstrap's grid system.

## Projects

---

- **Dashboard:** A custom dashboard application designed to showcase analytical data.
- **Game Landing Page:** Landing page for a game. [[View Project](#)]
- **Watch Ads Site:** A site for viewing ads and earning rewards. [[View Project](#)]
- **Job Portal:** A portal to search for jobs and post vacancies. [[View Project](#)]

## Education

---

- **Diploma in Web Development,** Institute (Year)  
Completed training in web development with a focus on front-end technologies.
